Sweeper**

READ THIS BOOK

This book has important information for the use and safe operation of this machine. Failure to read this book prior to operating or attempting any service or maintenance procedure to your ALTO machine could result in injury to you or to other personnel; damage to the machine or to other property could occur as well. You must have training in the operation of this machine before using it. If your operator(s) cannot read English, have this manual explained fully before attempting to operate this machine.

Si Ud. o sus operadores no pueden leer el Inglés, se hagan explicar este manual completamente antes de tratar el manejo o servicio de esta máquina.

All directions given in this book are as seen from the operator's position at the rear of the machine.

For new books write to: ALTO U.S. Inc., 2100 Highway 265, Springdale, Arkansas 72764.

OPERATOR SAFETY INSTRUCTIONS

DANGER means:	Severe bodily injury or death can occur to you or other personnel if the DANGER statements found on your machine or in your Owner's Manual are ignored or are not adhered to. Read and observe all DANGER statements found in your Owner's Manual and on your machine.
WARNING means:	Injury can occur to you and to other personnel if the WARNING statements found on your machine or in your Owner's Manual are ignored or are not adhered to. Read and observe all WARNING statements found in your Owner's Manual and on your machine.
CAUTION means:	Damage can occur to the machine or to other property if the CAUTION statements found on your machine or in your Owner's Manual are ignored or are not adhered to. Read and observe all CAUTION statements found in your Owner's Manual and on your machine.

-  **DANGER:** Failure to read the Operator's Manual prior to using this machine could result in injury to you or to other personnel; damage to the machine or to other property could occur as well. You must have training in the operation of this machine before using it. If you or your operator(s) cannot read English, have this manual explained fully before attempting to operate this machine
-  **DANGER:** Operating a machine that is not completely or fully assembled could result in injury or property damage. Do not operate this machine until it is completely assembled.
-  **WARNING:** This machine is not usable for liquids or hazardous materials. To avoid injury to persons or damage to the machine, do not use this machine with liquids or hazardous materials.
-  **WARNING:** To avoid injury to personnel or damage to machine, do not leave this machine on a ramp or dock.
-  **WARNING:** Failure to read and observe all safety statements found on your machine or in this Operator's Manual can result in serious injury or damage. Read and observe all safety statements. Make sure that all labels, decals, warnings, cautions, and instructions are fastened to the machine. Get new labels from your authorized Clarke distributor.
-  **CAUTION:** When the machine is delivered, carefully inspect the shipping carton and the machine for damage. If damage is evident, save the shipping carton so that it can be inspected by the trucking company that delivered it. Contact the trucking company immediately to file a damage claim. Make sure all loose parts and literature are removed before the shipping carton is discarded.
-  **CAUTION:** Maintenance and repairs performed by unauthorized personnel could result in damage or injury. Maintenance and repairs performed by unauthorized personnel will void your warranty. Servicing of this unit must always be referred to an authorized Clarke distributor.

Introduction and Machine Specifications

The PS-27 is many times faster than conventional cleaning with a push broom. The side broom allows for cleaning along curbs or walls and in corners. There is no engine or motor, no noise, and no odor. The push sweeper requires no maintenance. The hopper can be emptied easily and rapidly.

The PS-27 can be used anywhere, anytime....indoors or outdoors for concrete, tile and commercial carpets.

Machine Specifications:

Sweeping Width	27" with side broom
Main Broom	10" x 19" - adjustable height
Side Broom	13" - polypropylene bristles - adjustable height
Hopper Capacity	10 Gallons (1.5 Bushels)
Wheels	12" semi-pneumatic, non-slip tires
Casters	3" rubber, heavy-duty ball bearing
Dimensions	Height 36" (floor/top of handle) Width 30 ³ / ₈ " (wheel/outside of side broom) Length 53" (handle/side broom) 41" (excluding handle)
Output	22,000 sq. ft./hr.
Unit Weight	71 lbs.
Shipping Dimensions	35 ⁷ / ₈ " x 28 ³ / ₈ " x 7 ³ / ₄ "
Shipping Weight	82.5 lbs.

HOW TO ASSEMBLE THE PS-27

1. Remove the four (4) handle mounting screws from the handle brackets on the machine.
2. Slide the handle over the angle brackets. Line up the holes in the handle with the holes in the handle brackets and reinstall the four (4) screws.
3. Pull the handle on top of the hopper upward and lift the hopper off of the machine.
4. Lower the side broom into the side broom bracket so that the holes in the bracket are lined up with the hole in the arm.
5. Slide the pin (from the hardware package) through the holes in the bracket and into the arm. Position the pin so that it is centered on the bracket.
6. Install the black Phillips head screw on the side broom. Tighten the screw to hold the pin in place.
7. Lift the right, rear wheel off of the ground and put the belt around the pulley on the inside of the wheel. Pivot the side broom arm all the way up.
8. Pull the belt towards the front of the machine and twist the belt $\frac{1}{4}$ turn counter-clockwise (the part of the belt from the top of the rear wheel should move away from the machine.)
9. Lift the belt so that it is outside of the side broom arm and install it around the side broom pulley.
10. Route the belt between the two (2) white plastic pulleys.
11. Install the side broom on the side broom arm using the three (3) screws and the three (3) lockwashers.
12. Lower the side broom arm and position the belt so that it runs through the side broom arm.
13. Screw the side broom adjustment knob into the side broom arm. Adjust the knob so that about $\frac{1}{3}$ of the side broom bristles are touching the floor.
14. Loosen the two (2) screws that hold the side broom bracket against the chassis. Make sure that the height adjustment screw is between the edges of the stop bracket on the frame.
15. Pull the side broom forward as far as the belt will allow, and tighten the screws.

HOW TO OPERATE THE PS-27 SWEEPER

1. Adjust the height of the main sweeping broom so that the bristles just touch the floor. **NOTE:** Sweeping performance will be poor and the machine will be hard to push if the main broom is set too low.
2. Lower the side broom when sweeping along curbs or walls. **NOTE:** Adjust the side broom height so that $\frac{1}{3}$ of the bristles are touching the floor.
3. Push the machine forward to enable the main broom to kick dirt and debris into the dirt hopper. **NOTE:** The machine will not sweep when it is pulled backward.
4. Lift the hopper off of the machine and empty it after each use, or whenever debris is left behind the machine.

MAINTENANCE

Monthly:

1. Tip the machine on its side and remove any string that is wrapped around the main sweeping broom.
2. Lubricate the front caster wheel with light machine oil.
3. Inspect the rubber skirt on the hopper. Replace the skirt if it is torn.

Every Six Months:

1. Inspect the rubber skirts on each side and behind the sweeping broom. Replace the skirt if it is torn.
2. Tip the machine on its side and inspect the main broom for wear. Replace the broom when the bristles are worn to a length of 1½ inch (38MM).

Renewal of the Broom Assemblies:

1. The broom roller consists of a broom shaft with three broom supports, one lock washer with a hollow screw and ten (10) broom assemblies as follows:
 - (5) broom assemblies with bristles of 0.006 in. (0.15MM).
 - (5) broom assemblies with bristles of 0.01 in. (0.25MM).

Broom Assembly Replacement:

1. Unscrew the cap screw (Allen Key, 0.2 in. - 5MM).
2. Turn the lock washer slightly until the notch at the end of the broom assemblies are placed next to each other.
3. Pull the broom assembly to the left to unlock it from the broom supports on the broom shaft.
4. Turn the lock washer and remove the broom assembly.
5. Insert the new broom assemblies onto the shaft so that the 0.006 in. (0.15MM) and 0.01 in (0.25MM) bristles are alternated.

CLARKE TECHNOLOGY LIMITED WARRANTY

This Clarke Industrial/Commercial Product is warranted to be free from defects in materials and workmanship under normal use and service for a period of one year from the date of purchase, when operated and maintained in accordance with Clarke's Maintenance and Operations instructions.

This warranty is extended only to the original purchaser for use of the product. It does not cover normal wear parts such as electrical cable, rubber parts, hoses and motor brushes.

If a difficulty develops with the product, you should:

- a) Contact the nearest authorized Clarke repair location or contact the ALTO U.S. Service Operations Department, 2100 Highway 265, Springdale Arkansas 72764, for the nearest authorized Clarke repair location. Only these locations are authorized to make repairs to the product under this warranty.
- b) Return the product to the nearest Clarke repair location. Transportation charges to and from the repair location must be prepaid by the purchaser.
- c) Clarke will repair the product and/or replace any defective parts without charge within a reasonable time after receipt of the product.

Clarke's liability under this warranty is limited to repair of the product and/or replacement of parts and is given to purchaser in lieu of all other remedies, including INCIDENTAL AND CONSEQUENTIAL DAMAGES.

THERE ARE NO EXPRESS WARRANTIES OTHER THAN THOSE SPECIFIED HEREIN. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION OF THE FACE HEREOF. NO WARRANTIES, INCLUDING BUT NOT LIMITED TO WARRANTY OF MERCHANTABILITY, SHALL BE IMPLIED. A warranty registration card is provided with your Clarke product. Return the card to assist Clarke in providing the performance you expect from your new floor machine. ALTO U.S. Inc., 2100 Highway 265, Springdale, Arkansas 72764.

**CLARKE TECHNOLOGY reserves the right to make changes or improvements to its machine without notice.
Always use genuine Clarke Parts for repair.**
